Standards manage your business
We manage your standards
About

BSB Edge has long established itself as one of the leading providers of National and International Standards in India. Ever since its inception, more than four decades ago, BSB Edge has steadily grown in stature to become an institution par excellence winning the trust and confidence of its esteemed customers.

An ISO 9001 : 2015 certified organisation, BSB Edge has signed-up with several leading international Standard Developing Organizations (SDOs) to provide an entire gamut of services related to distribution and marketing of Standards and Technical Documents.

The strong relationship that we share with the SDOs is one of our most valued assets. Precise and timely flow of information from their side has always assisted us in keeping the paradigms of the various fields up-to-date.

The Edge

At BSB Edge, we understand that merely being compliant to the standards may not be enough to succeed. Therefore, in order to put an organisation at the forefront of business excellence, it is imperative to look beyond compliance, and bring in standardisation in its operations. By laying down the best practices within a rational, deliverable and replicable framework, standardisation ensures a consistent and high level of performance. It is this standardisation that we have been promoting through the years.

We aim to help businesses and organisations minimise risks and maximise quality and profit. We believe that our customers must have an ‘Edge’ over their competitors to stay ahead in the competitive market.

Providing Easy Access to Over 1 MILLION Standards and Technical Documents!

Delivering to Our Clients Their Standard Requirements on Time, Every Time!

Sourcing the Power of Knowledge!

Fostering Unmatched Relationships!
Services to Help Your Business Succeed

- Standards are dispatched same day as the order is placed.
- All customer queries are handled efficiently and mostly responded to within eight working hours.
- Information about revised, amended or superseded standards is sent to customers without any additional charge.
- Executives are always available to provide the after sales service to the clients who purchase our electronic products.
- Orders can be tracked through our website using internally developed software.
- Successful third party logistical tie-ups to ensure that the standards are delivered safely and in a time bound manner.
- Regular updates on the changes in standards and codes to keep our customers abreast with the latest.
- Provision of easy-to-use tools to minimize the learning curve.
- Valuable information sharing and collaboration to improve compliance.
- Facilities to increase productivity and eliminate of the 'hidden' costs.

Integrated Delivery Options

Take advantage of our easy and cost-effective delivery options and subscriptions.

PDF
We offer most of the standards in the PDF format. You can download these files directly from our website after purchase.

CD-ROM / DVD
You can procure individual standards in a CD-ROM and/or a DVD. Both are available in standalone and network versions. You can load the network version to your organization's internal network at a nominal additional charge.

Hardcopy
We also provide standards and technical publications in print media depending on your requirement.

Custom Collection
Custom Collection is an extremely flexible standards solution. It helps you build your own custom library of standards and publications.

Subscriptions
Standards Subscriptions provide a cost effective multiuser solution for accessing standards.
Promoting Excellence Over 45 Years!

Vision
BSB Edge is the most preferred provider of standards and the related services in India. Our vision is to fortify our leadership in India and to build on the same reputation and position across the globe.
